I have sent you some interviews with some of the most qualified experts in the world. It is shameful and that these experts have their voices heard only on obscure web sites and news sources, but we now know why.

Since Dr. Fauci's emails have been exposed, we have now learned that he coerced with main stream media and social media giants like Facebook and Google etc. to suppress the truth. They have the emails back and forth to these entities. As a result the US senate has launched an investigation, both Democrats and Republicans. [This here is a very recent video](#) where the famed Dr. Yeadon (former Pfizer VP, CSO) will testify before the Senate.

[The brighteon website also did an interview with Dr. Yeadon](#) and he exposes all the lies about Covid-19. This is one of the best experts in the world and you should listen to him, but it is an hour and 30 minute interview, but he goes into everything. **I cannot emphasize enough how important it is to learn this information.** Many lives will depend upon it.

**This guy has over 30 years experience and that includes chief scientist at Pfizer. If you don't listen and believe what this expert has to say than only God can help you.**

Many of you will know or recognize Laura-Lynn Tyler Thompson, especially in western Canada. For a long time she did The 700 club national news show, and at one time was carried by over 100 stations. She now has her own news site or podcast. I was not even aware of this but heard she did an interview with Dr. Hoffe of Linton BC. It was very hard to find, but when I did, I discovered she has been a voice against all the mis-information on Covid-19 from our governments and health officials. I strongly suggest listening to the Dr Hoffe interview.

Hoffe makes the best comment I ever heard. We now know for certain that Covid-19 effects 3 senses. [Watch for the answer.](#) My advice, be part of the unvaccinated control group in this experiment. He also lists a dozen or more failures of our government and health officials.

Israel was the first country to do vaccines and now they have all kinds of trouble. The people are suing the government. Laura-Lynn did an interview with 2 experts there but it is kind of long with interpretation. [She mentions it in this short video](#) of a Kelowna BC family devastated by the vaccine. Their daughter still crippled almost 6 months later. You can view all the past videos on Laura-Lynn's podcast

I am happy to say, my MP, Derek Sloan had a news conference at parliament with whistle blowers this past Thursday. [For Canadians this is a must view 38 minute news conference at parliament on CPAC.](#) It also includes Dr. Bridle (vaccine expert) of the University of Guelph. **The attacks on him are unreal – fake social media accounts setup. What is most revealing here is that not one main stream reporter asked a question in the Q&A.** There is not much better proof that they are biased and not doing their job.

Most of you know of [Eric Sprott, he is now speaking out about vaccines](#) and he admits he took both shots. He mentions Dr Bridle as I have and and he [respects Greg Hunter at usawatchdog.](#) I am not so sure of?
